First Aid Basic Safety

Check the surroundings

Call for help

Care for the person

Determine responsiveness

Check for breathing and a pulse

If the person remains unresponsive for CPR

**You need to be safe to reach high career level. So, always
keep safety in mind.**

Perform 30 chest compressions and two rescue breaths as part of CPR

Remember your ABCs of CPR

Make sure the person is warm as you wait for medical help

Pay attention to a list of don'ts

Stop the bleeding first

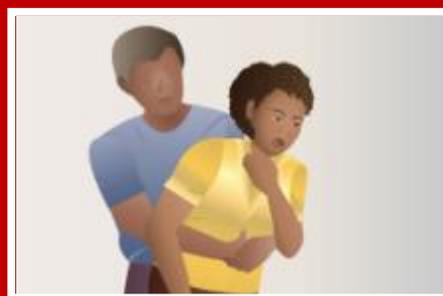

Treat Shock Next

Provide first aid for a broken bone

Help a choking victim

Learn how to treat a burn

Look out for a concussion

Treat a Spinal injury victim

Help someone who is having a seizure

Help someone survive a heart attack

Identify someone having a stroke

Safety starts with "S", begins with "You"

Safety in Construction with A Special Focus on Emergency Handling

Title	<i>Safety in Construction with A Special Focus on Emergency Handling.</i>
Category	Construction Safety
Duration	21 st March 2015. Time: 9.30 am to 3.30 pm.
Location	SEED Training Hall – Camp road, Chennai.
Fees	900 + Tax

Mode of Language : English & Tamil

Course objectives : This course will cover all Safety Construction with A Special Focus on Emergency Handling

Who should attend? : All Professional

WHAT WILL YOU LEARN?	WHO WILL TEACH?
<p><i>About the construction safety challenges</i> <i>Construction hazards</i> <i>Electrical</i> <i>Fall prevention</i> <i>Ladder safety</i> <i>Safety with hand tools</i> <i>Job safety analysis rigging</i> <i>Hazards identification & Risk analysis</i> <i>Emergency response & preparedness</i> <i>Safety in construction Machineries/ Lifting and rigging safety</i> <i>Emergency Handling Situations Like:</i></p> <ul style="list-style-type: none"> ▪ Fire ▪ Accident ▪ Land Sliding ▪ Fall Protection ▪ Scaffolding Collapse 	<p>Expert From Industries</p>

Accidents of the Week

Ice may have caused Air Asia crash: Indonesia agency: The Airbus A320-200 crashed into the Java Sea on December 28 carrying 162 people from Indonesian city Surabaya to Singapore. Searchers are hunting for the "black box" flight data recorders to determine the cause of the crash.

Gas explosion kills 17 in China: A gas explosion at an auto parts factory killed 17 people and injured 20 on Wednesday morning in the southern city of Foshan, Chinese officials said. 31.12.14.

Helmetless ride proved costly: 2nd year B.Com., student, was killed after he was thrown off his two-wheeler when he was negotiating an unscientifically made road hump near Jalahalli Cross on Jan 1st 2015.

Five killed as surface water tank collapses in Raichur: Five people were crushed to death and two others injured when a newly-built surface-level water tank collapsed on the outskirts of Yapaladinni village, around 25 km from here, on Jan 4th 2015 morning.

Zero accident requires 100% commitment to safety.

Legal Article

THE FACTORIES ACT 1948

Chapter I-Preliminary

4. Power to declare different departments to be separate factories or two or more factories to be a single factory.

The State Government may, [on its own motion or] may, on writing, [and subject to such conditions as it may deem fit], that for all or any of the purposes of this Act different departments of branches of a factory of the occupier specified in the application shall be treated as a single factory.]

[Provided that no order under this section shall be made by the State Govt. on its own motion unless an opportunity of being heard is given to the occupier.]

5. Power to exempt during public emergency

In any case of a public emergency the State Government may, by notification in the Official Gazette, exempt any factory or class or description of factories from all or any of the provisions of this Act except section 67 for such period and subject to such conditions as it may think fit;

Provided that no such notification shall be made for a period exceeding three months at a time.

Explanation. - *For the purposes of this section 'public emergency' means a grave emergency whereby security of India or any part of the territory thereof is threatened, whether by war or external aggression or internal disturbance.*

6. Approval, licensing and registration of factories.

1) *The State Government may make rules -*

(a) requiring, for the purposes of this Act, the submission of plans of any class or description of factories to the Chief Inspector or the State Government;]

(aa) requiring the previous permission in writing of the State Government or the Chief Inspector to be obtained for the site on which the factory is to be situated and for the construction or extension of any factory or class or description of factories;

(b) Requiring for the purpose of considering applications for such permission the submission of plans and specifications;

(c) Prescribing the nature of such plans and specifications and by whom they shall be certified;

(d) Requiring the registration and licensing of factories, or any class or description of factories, and prescribing the fees payable for such registration and licensing and for the renewal of licenses;

(e) Requiring that no license shall be granted or renewed unless the notice specified in section 7 has been given.

(2) If on an application for permission referred to in 29[clause (aa)] of sub-section (1) accompanied by the plans and specifications required by the rules made under clause (b) of that sub-section, sent to the [State] Government or Chief Inspector by registered post, no order is communicated to the applicant within three months from the date on which it is so sent, the permission applied for in the said application shall be deemed to have been granted.

3) Where a [State] Government or a Chief Inspector refuses to grant permission to the site, construction or extension of a factory or to the registration and licensing of a factory, the applicant may within thirty days of the date of such refusal, appeal to the Central Government if the decision appealed from was of the [State] Government and to the 28[State] Government in any other case.

Explanation: *A factory shall not be deemed to be extended within the meaning of this section by reason only of the replacement of any plant or machinery, or within such limits as may be prescribed, of the addition of any plant or machinery.³⁰[If such replacement or addition does not reduce the minimum clear space required for safe working around the plant or machinery or adversely affect the environmental conditions from the evolution or emission of steam, heat or dust or fumes injurious to health].*

Safety is the engine, and you are the key that starts it.

Tool Box of the Week

INTRODUCTION

The Accident / Incident rate, occurrence of ill Health and Environmental damage in the Construction Industry are serious national problems. Continued training is essential to prevent Accidents / Incidents, ill Health and Environmental damage.

The TOOLBOX TALK programme, if implemented correctly, can play a major part in our continuing effort to create an increased awareness of:

- Hazards present in the industry
- Precautions which must be taken to eliminate or control them

And in doing so will help to reduce unwanted incidents

The TOOLBOX TALK programme has been written as a series of numbered discussion topics on Safety, Health and Environmental issues.

A good safety culture is built over time. It is never given.

Safety Format of the Week

ACCIDENT/INCIDENT ANALYSIS FORM

PERSONAL DETAILS OF THE INJURED PERSON

Name of the person	
Category & Bay	
Emp.No	
Date of Joining	

ACCIDENT/INCIDENT DETAILS

Area of accident :	Date & Time of accident:
--------------------	--------------------------

ACCIDENT/INCIDENT DESCRIPTION	
-------------------------------	--

ROOT CAUSE FOR ACCIDENT/INCIDENT

REMEDIAL MEASURES

SIGNATURE OF THE FOREMAN/ENGINEER	SIGNATURE OF THE MALE NURSE
-----------------------------------	-----------------------------

SIGNATURE OF THE SAFETY DEPT.	SIGNATURE OF HOD
-------------------------------	------------------

Safety will always be the best recipe for success.
